CATALOGUE #: 8G16-11b

PRODUCT NAME: Trisialoganglioside GT1a, bovine

Source: Bovine brain tissue.

Applications: One of the minor neuronal gangliosides. Demonstrates high-affinity binding with amyloid beta-protein, useful as one of the markers of Alzheimer disease.

Analysis: Purity more than 98 % by HPTLC. MW 2109

Presentation: Lyophilized from water solution.

Storage: Before and after reconstitution at -20 °C (-15 ... -30 °C allowed)

Material safety note: This product is sold **for research or further manufacturing use only**. Standard Laboratory Practices should be followed when handling this material.
